Royal DSM completes acquisition of Royal Dutch CSK, combining complementary strengths to better serve dairy industries

It's with great pleasure that we are now able to inform you of the completion of the acquisition of specialty dairy solutions provider Koninklijke CSK Food Enrichment C.V. by DSM. With this acquisition we strengthen our dairy portfolio and our ability to serve the needs of dairy industries worldwide. Our companies have a great fit together, with our shared passion for dairy, our skilled and dedicated people, and our complementary solution portfolios.

This is also a testament to DSM's commitment to the dairy industry, which we support throughout our Nutrition businesses. We recognize that today's dairy needs are constantly changing, hence we continue to invest in enabling customers to keep satisfying consumer demand. It's our continued aim to help you grow your business. The acquisition of CSK will greatly strengthen our ability to do so.

We have started to prepare for full integration. For now, nothing will change for you as our valued customer, neither in the way you do business with DSM or with CSK nor to the product portfolios on offer. Your CSK and DSM contact persons remain unchanged and will continue to service you.

We will of course keep you informed of as this process progresses. We look forward to being able to further deepen our valuable relationship with you.

Should you have any questions please reach out to your regular contact persons.

Kind regards,

Marianne Kentie
